HAPPY NEW YEAR – WE'RE BACK!

Happy New Year. Our first day back today and we are getting into the flow of things quickly. As usual over the holiday period the weather was a mixed bag depending where you were in the country. We all enjoyed our holiday and now it is time to plan the year ahead and get the last of the compliance work as far as preparing financial statements and tax returns completed and then get on to some other work that will have a positive impact on your business and its success. This year Maurice and the Accounting team are going to do more client reviews outside of the annual sign off meetings so we will be in touch. But if you want to have a catch up and discuss where your business is going and your issues & challenges feel free to give us a call at any stage. Remember these client meetings are free and gives us a chance to catch up with you and your business, but also for you to tell us what you want from us and how

we are going at attending to those needs. We can provide some useful insight and tools to help you and your business. We can also get business plans and cash flow forecasts sorted so that you can measure your progress against them but also when the bank asks for them you have them ready.

END OF YEAR WORK – WE NEED IT NOW

For those of you who haven't got your 2017 information to us so that we can complete your end of financial year financial statements & tax returns then you need to get us the information as soon as possible. Inland Revenue will soon be sending out their reminder letters for those whose tax returns haven't been filed. We aim to have a turnaround of your end of year work of 4 weeks. Get your information to us by the 31st January 2018 and we will guarantee to have it done by the end of February. If we are inundated with work at the end of February or early March we may struggle to get it all completed by the 31st March but you can be assured we will try.
